CHICAGO PARK. Progress of the Colony Recently Estab-

lished Near Colfax. The enterprise of colonizing Chicago Park, near the town of Colfax, is noteworthy as being the first real colony in the northern part of this State. Thermalito is not a colony in the more recent sense of cut up and is being sold to all comers, mostly old Californians. Chicago Park is o be peopled by actual new settlers, most of whom will come from the city of Chi-

cago or its immediate vicinity. Enough of the land has now been sold to warrant the announcement that the colony following of criminal classes amounting to at Chicago Park will be a perfect success. and the conditions of the sale of its lands are such that success is doubly assured. The scheme was originated by Morris Lob ner and W. B. Hayford, of Colfax, who interested nine Chicago gentlemen in the project, and the eleven men formed a synupon the skirts of these two, will apply a dicate which bought and bonded 6,700 acres about three miles from Colfax on the Nevada county side of Bear river. It is rolling land with a rich soil, well adapted to the production of apples, pears, grapes and the more marketable varieties of fruits. Operations were begun by laying off a town Anarchists could rally as many as 2,000 served a public square 360x600 feet. Streets and avenues have been laid out eighty feet ulation of half a million, an armed guard of 3,000, a police force of 700 men, and in size. The streets have been named after of 3,000, a police force of 700 men, and prominent streets in Chicago, such as "Calumet" and "La Salle" avenues. Three larger lots have been reserved for two churches and a school-house. The Nevada twenty-four hours to put 20,000 men armed Narrow-guage Railroad cuts across the eastern edge of the town site. Just outside of the town five acres have been reserved for a hotel which the company will build, possibly this fall, at a cost of about \$25,000. One half of these town lots have already been sold in Chicago to merchants, tradesmen, mechanics and others, who will build usiness and dwelling-houses upon them

Of the land which it is proposed to put under cultivation, 2,300 acres have been put on the Chicago market, and 2,000 acres have already been sold at \$75 an acre in tracts of ten, twenty, and forty acres. There are very few which contain forty acres, and ne which are larger. These tracts have all been sold upon the condition that five eres shall be improved and planted during the coming year, and no deed will be de-livered until this stipulation has been complied with. The sellers also agree to allow a rebate of \$10 on each additional acre which shall be improved during the coming year. There is a fine tract of fourteen cres just outside of the town site which will be reserved as a public park, the com-

Estimate of Foothill Climate.

The Auburn Republican publishes a num ber of interviews with prominent people concerning their views of the climate of the There, a large tract of land was | Sierra foothills, among which F. Lamber tenghi, Italian Consul at San Francisco. says:

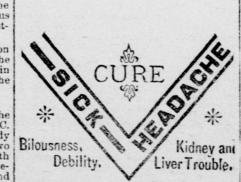

"There cannot be enough said in praise of the Auburn climate. It is literally true that there is hardly another place in this or any other country like it. I have been in Los Angeles, San Diego and all the south ern towns, but here you have a much richer soil and a climate with which they canno compare. I was here last year and have pent a great part of the present year here, and I know it is the finest climate I ever found, except at points of the same eleva-tion for a short distance to the north and outh; but Auburn is the best place on account of accessibility by rail. Italy is a fine country, but there is no climate there as good as here in Auburn. That is the fact. Italy is so surrounded by the ocean that the air is always a little too moist. I can compare the climate of Auburn only to a mixture of the climates of Italy and northern Africa. It is as equable and sunny as the former, and dry like the latter. The climate here is also similar to the best parts of European Turkey. love my own country, but I would rather live here than in any place I ever saw. I am continued in the service I shall make my home in Auburn, of course retaining my office in San Francisco; but you see a man can leave on the overland in the morning, reach San Francisco by 11 o'clock. eave at 3 in the afternoon and be home again by 10 o'clock in the evening, while my duties do not require my presence there every day. For the sake of living here I would much prefer being Consul in San Francisco to being Consul-General in New York. Of course this little city needs I suppose the people will make them soon And now look at that sunset. Do you know that sight cannot be surpassed in any place in the world? My home is in Milan, and I have seen sunsets on the beautiful Lake Como and at all the noted claces in Europe, but never have I seen uch colorings and tints as those. When there are a few light clouds in the west, a view of the setting sun from one of these nills is grand. Nowhere else will you see such varied, such delicate and such gorgeous colors. Ob, this is an almost perfect

M. LeLong, have issued a circular calling the meeting, in which they say:

"Every arrangement will be made to render this the most successful meeting of fruit growers ever held in this State. In order to advance the interests of horticulture, and with the desire hat the con vention be largely attended, the citizens Santa Rosa and the State Board of Horticulture cordially invite all those interested to be present and participate in its deliberations. The State Board of Forestry have accepted an invitation, and will be present at the convention. An exhibition of fruits will be made by the people of Santa Rosa and vicinity. All those having new fruits and inventions of value to horticulturists are requested to exhibit them at this me Visitors will be provided with the necessary hotel accommodations, etc., and every endeavor will be made to make every visitor feel that it was well that he came.

The Living Earth.

In a paper published in the Indian Enneer, an illustration is given of the life hat dwells in nature, the phenomena of earthquakes being cited. The peculiar hirty-four years at San Quentin for killing error of an earthquake lies mainly in the suddenness of its approach. Volcanic eruptions are usually preceded by vast umblings or jets of steam, or other un nistakable tokens. Hurricanes and cyclones, in like manner, have heralds that announce their coming. But with an earthquake there are no premonitory symptoms. The great earthquake which took place at Lisbon in 1755 found the people engaged in their ordinary occupaons. All the shocks were over in about ive minutes. The first shock lasted about six seconds. In that brief space of time most of the houses had been thrown down and thousands of men, women and children crushed beneath the ruins, At times the ocean lends fresh terrors to the scene. Thus at Lisbon a wave of water fifty feet high rushed in among the houses and covrussian Boy won the pacing race against ered what still remained. In the Island of Jamaica, on a similar occasion, 2,500 houses were buried in three minutes under thirty feet of water. Recent delicate scientific experiments have disclosed the fact that the surface of the land is never absorbed lutely at rest for more than thirty hours At Oakland, on Saturday, Gus Wilkes won the 2:29 trot. Best time, 2:232. Ninena won the mile running race. Best extreme cases of forces that seldom sleep.

It was a most admirable and instructive entertainment, showing the resources, industrial entershowing the resources, industrial enterprises, cities and natural wonders of the country in a most impressive and educating manner. Last evening Mr. Phillips gave a song service and bible reading at the same place—the Metropolitan Theater—when he had a crowded house. The service consisted of songs by Mr. Phillips, and also those in which the audience joined, such as "Rock of Ages" and "Cornation," the music and words being thrown upon the screen by photo-opticon process and read as from a note book. In like manner the passages of scripture for Bible reading were thrown upon the screen, and the audithrown upon the screen, and the audi-ence read responsively to Mr. Phillips. A DANGEROUS INVALID .- The Yolo Mail, the County Hospital will be minus an inmate, as one of the 'grand army' is to be sent away. This patient is a woman named Corley, who was sent to the hospital from Washington. After being in the institution a few days she became cross and peevish and wanted to run the whole house. This was objected to by the officials at the hospital and she was placed in a room by herself. This room had been used as a storeroom, and in it she found some powder which she put in a stove and then started a fire. The powder soon exploded and the was done through pure spite, and the see to it that our reflectors are what they authorities are right in ordering her expulsional should be.

THEATER THIS WEEK .- The Metropolitan Theater will be opened this evening ployed by A. R. Wilber's consolidated companies in a repertoire of plays of the latest New York drama and comedy successes, with a change of bill nightly. They will give a performance each night throughout the week, and a matinee on Saturday. The prices are something that will surely recommend this company, they being announced to be 10, 20 and 30 cents-down stairs 30 cents, upstairs 20 cents, children 10 cents. The Portland Daily News, in speaking of this company, says the per-formances are first class, the casts of characters excellent, and the entire compan above the average.

LIABILITY OF PHYSICIANS.

What a Supreme Court Judge Said in Charging a Jury-Common Law. Charging a Jury—Common Law.

In a recent case, involving a charge of malpractice, tried in the Supreme Court of Massachusetts, the presiding Judge in charging the jury used the following language: "Whenever men are called upon to act with dangerous agencies, the law holds them to some degree of criminal responsibility. If they are grossly careless or reckless and presumptuous, they are guilty. The same general principle applies to medical treatment. The Government must show not merely the absence of ordinary care, but gross carelessness, amounting to recklessness. A man is not to be convicted of manslaughter merely because of his ignorance. His ignorance is only important as bearing upon the question whether his conduct in the care and treatment of the patient was marked by foolhard y presumption or gross and reckless. In a recent case, involving a charge of

of age. During the past two years I have suffered severely from rheumatism of the lower part of my back. My back ached without cessation, and at times I thought I would be paralyzed. I procured two All-cock's Porous Plasters and put them across the lower part of my spine. In twenty four hours all pain had ceased. At the end of a week I put on two fresh Allcock's Porous Plasters, wore them ten days, then took them off and washed my back with a little alcohol, which removed every trace of the plasters. It is now three m since the plasters cured me, and I feel very

much stronger and better than ever before

MISCELLANEOUS.

Take it in Time.

Ayer's Cherry Pectoral is a highly concentrated and powerful medicine. It is an anodyne expectorant, and, if promptly taken, in cases of Coughs, Throat or Lung troubles, soothes and heals the irritated tissues, and quickly allays all tendency to Consumption. Six years ago, I contracted a severe

my Chest and Sides, and was so completely prostrated, as to be confined to my bed most of the time. After trying my bed most of the time. After trying various prescriptions, without benefit, my physician finally determined to give me Ayer's Cherry Pectoral. I took it, and the effect was magical. I seemed to rally from the first dose of this medicine, and, after using only three bottles, am now as well and sound as ever.—Redney Johnson, Springfield, Ill. I have used Ayer's Cherry Pectoral in my family, for Colds and Coughs, with infallible success, and should not dare to be without this medicine through

the winter months.—Russel Bodine, Hughesville, Lycoming Co., Pa. Ayer's Cherry Pectoral, Prepared by Dr. J. C. Aver & Co., Lowell, Mass. Sold by all Druggists. Price \$1; six bottles, \$5.
